Mobile Box Filler

Model # 17210

This machine is for growers who fill a high volume of large containers. Containers can be filled directly in the field eliminating the need to handle them after filling and planting. Hydraulic controls provide consistent soil flow for high speed filling. Operator controls offer precision with minimum spillage.

Hydraulic controls allow speed adjustment of the soil hopper and conveyor. Switching from one pot size to another is quick and easy. Operation is easy with low maintenance, mobility, and fast change-overs. The Mobile Box Filler is designed to handle heavy nursery mixes.

10 yard portable hopper with UHMW wear strip under chain. Includes flotation tires and 180° swivel feed conveyor. Unit powered from tractor P.T.O. and 12 volt power supply.

Specifications

Power	Min 40 HP tractor w/ P.T.O. & 12 volt power supply
Production	Up to 1 yard every 2 minutes
Dimensions	10'3" x 14'11"
Weight	4,300 pounds
Cababilities	Fills container up to 48" tall
