Chemical and fertilizer
hopper

Etched gate setting for
single speed unit

A proud member of the
BouldinCorp™ Family

The Incorporator™

Model # 12410 (single phase) 12411 (three phase)

The Incorporator or Chemical/Fertilizer Incorporation Unit is designed to blend one or more chemicals/fertilizers into bulk material and or pre-mix for delivery to production equipment. 50 cubic yards per hour is standard but can be expanded with our modular mixing systems to supply required output.

The Low Profile Incorporator™

Model # 12461 (single phase) 12463 (three phase)

The Low Profile Incorporator or Chemical/Fertilizer Incorporation Unit is designed to blend one or more chemicals/fertilizers into bulk material and or pre-mix for delivery to production equipment. Same benefits as standard incorporator but its low profile design allow for easy loading in height restricted situations.

Made in the USA
