Basic Fluffer™

Model # 16501 [14" wide conveyor] **16506** [18" wide conveyor]

Mounted on an Incline Conveyor, the Basic Fluffer has a broad range of applications in preparing greenhouse and nursery growing media.

This rugged and cost-effective attachment saves valuable time and manual labor. It is designed to convert baled or compressed materials into usable media ready for container filling on a potting table, potting machine, or flat filler.

The Basic Fluffer can be powered by either a 110 V or 220 V power supply, depending on the system served.

Specifications

Power	3/4 HP/ 220 or 110V/ single or three phase / 50 or 60 Hz
Production	Varies upon width of unit
