BouldinCorp™ Family**

CM III™ & CM X Potting Systems

CM III

Model # 10331 (Single Phase)
Model # 10333 (Three Phase)

The CM Potting Machine systems are continuous motion potting systems with the highest production levels available from any potting machines.

Pots are loaded automatically or by hand for smooth transplanting. The unique drilling mechanism provides longer drill life and more uniform holes.

The CM III Potting System accepts pots from 6" to 3 gallon. The CM X accepts pots from 6" to 10 gallon. Both units feature a 2.3 yard soil feeder, multi-drill carousel consisting of five drills, soil return system, operator's console with variable speed electric controls and start/stop switch.

CM X

Model # 10311 (Single Phase)
Model # 10313 (Three Phase)

Specifications

Power	10 HP/ 220 V/ single phase or three phase/ 50 or 60 Hz.
Production	CM III up to 100 pots per minute CM X up to 70 pots per minute
Dimensions	120"L x 204"W x 112"H
Weight	Approximately 4,000 lbs
Portability	Stationary
Options	Horizontal pot loading system In-feed conveyor Take off conveyor Additional pot holder and drill size

Made in the USA
