Incline conveyor works great with other B&L equipment like the Basic Fluffer

Feeding Coir grinder

**A proud member of the  
BouldinCorp™ Family**

# Incline Conveyor

**Model # 143**

Incline Conveyors are used to transfer media to designated locations. Uses include feeding raw material into batch mixers, continuous soil mixing lines, potting equipment or flat filling equipment.

Incline Conveyors start at 10' and can be ordered in increments of 5' to meet required dump height.

## Specifications

Power	Horsepower and voltage dependant on application
Belt Widths	14", 18", 24" and 36" Custom widths available
Available Lengths	10' and longer ordered in increments of 5' to meet required dump height

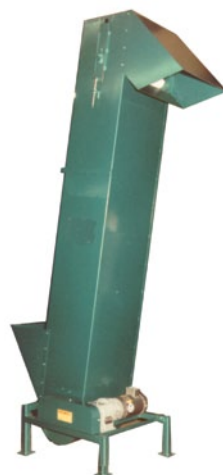

# Vertical Conveyor

**Model # 14821 ( Single Phase)**

**# 14823 (Three Phase)**

## Specifications

Power	2 HP/ 220 V/ single or three phase
Belt Width	Standard 9" and 18" Custom widths available

Vertical Conveyors are generally used as part of a larger system to meet limited space requirements.

Vertical Conveyors may also be used to carry material from Mixing Systems to overhead conveying systems.

Made in the USA
