quick and consistant mix

Incline conveyor for
loading into various
machines

**A proud member of the
BouldinCorp™ Family**

Twister™ II Pro

Shown with optional
tires and hitch

The Twister II Pro Batch Mixer can mix a wide variety of materials such as sand, peat, bark and soil, as well as chemicals and fertilizers.

The optional water bar allows the incorporation of water into pre-mixed material. The Twister II Pro will mix 2.5 cubic yards of material .

This machine includes a ribbon blender which moves material continuously to the sides and through the center for fast mixing and quick removal of mix through a discharge hatch.
