# Water Pro Recirculation System

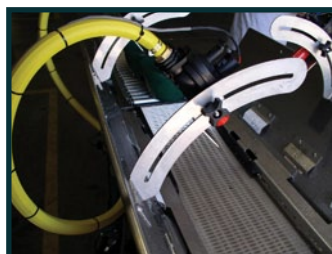

The versatile PRO LINE Watering System waters both flats and pots. The Watering System is designed to fit seamlessly with existing seeding, potting or transplanting lines. With a wide variety of nozzles and other options, this system will accommodate all of your watering needs.

## Features & Options

- The PRO-SERIES Watering System is powered by 110v AC.
- Standard nozzles: 11 gpm at 40 psi.
- Additional nozzles to be ordered separately: customer to specify gpm rate.
- Used as permanent fixture or easily moved out of the way with 4" casters.
- Optional 5' or 10' drainage conveyor that easily attaches without the use of tools.
- Dosatron®: Customer to specify gpm rate.

Optional Dosatron® chemical injector and/or Dosatron® chemical and fertilization system are available

Fully adjustable and interchangeable nozzle system "T" bars optional

Made in the USA
