Auger Return

Variable speed conveyor

Swing out brush assembly

A proud member of the
BouldinCorp™ Family

Maxi® Flex Filler

Model # 13385

The standard specifications are impressive and include: 16" clearance for tall pots, extended auger style soil return for the heaviest soil filling conditions and no spillage. Additional standard options include: direct drive gearbox for low maintenance, one crank handle adjustment for speedy change-over, swing-out brush assembly for easy service adjustment. Also an adjustable soil gate to match tray and pot width up to 18" wide.

This machine is the leader in its class, offering unrivaled performance, quality and specifications. The Flex will be an asset to your production and to your business.
